Available activities: Fishing (Lake trout, Northern Pike, & Arctic Grayling), hiking, gold panning, photography, wildlife viewing, canoeing, ATV riding, & just relaxing and enjoying the magnificent view! Includes lodging, meals, and guide.

We can also customize a remote wilderness fly-out fishing trip for Arctic Char, Sheefish, Lake Trout, Northern Pike, and Arctic Grayling.

I hope you will join us for an unforgettable adventure. We are an honest & hard-working outfitter, and strive to exceed your expectations. You can be assured that we will do everything within our power to make your trip exciting, comfortable, and successful. Alaska hunting can be one of the most physically demanding experiences you can encounter. Hunters should get a physical exam and begin physical training well in advance of their hunt. Hunters in good physical shape will get more out of the hunt, enjoy it more, and will have higher success rates. I suggest climbing with a loaded pack on. Call me for any advise on training for a hunt.

In addition, the hunter and guide are a team, with a common goal-success! Hunters should come with a positive mental attitude. It will serve you well during your hunt, especially during bad weather days. I tell my clients the keys to success are: PATIENCE, PERSISTENCE, & PERSERVERANCE, with staying positive and to never quit.

I hope you will come and visit the Alaska I've loved for 37 years, and let me take you on an ALASKAN WORLDCLASS ADVENTURE out of our MOUNTAIN VIEW LODGE.

Sincerely,  
David Bridges
